02 EXPERIENCE

Founder & Lead Developer

2022 — Present

DevMotion Studio · Cartagena, Spain

- Run a senior-engineering studio building modern full-stack products on **Next.js 16**, **Symfony 7**, **FastAPI**, and **Drupal 11** for international clients.
- Architected **TripSquick** — multilingual travel platform with Symfony API, Elasticsearch semantic search, AI trip planner, and a React Native / Expo companion app.
- Built **LIFT** — FastAPI + multilingual-e5 embeddings + Elasticsearch + embeddable widgets, with React 19 / Tailwind 4 admin (158 unit tests).
- Shipped **SettlePay** — crypto-invoicing SaaS for USDC/USDT/DAI on Base, Polygon, Arbitrum, Optimism, with on-chain listener daemon.
- Published **ShopCSV** on the Shopify App Store — Symfony 7 + React + AG Grid SPA for bulk product editing.
- Daily AI-integrated dev — Claude / OpenAI / Google AI / OpenRouter for parsers, content tools, and dev tooling.

Founder & Lead Developer

2014 – 2022

[Kindrakevich Digital Agency](#) · Ukraine

- Built and ran a digital agency in Ukraine — **30+ production projects** shipped across tourism, e-commerce, government, automotive, and B2B marketplaces.
- Engineered backend services in PHP / Symfony with MySQL and Elasticsearch — clean, maintainable architecture for high-traffic platforms.
- Architected the full **Karpaty.Rocks** tourism platform — Drupal 7 + REST API, multi-theme architecture, Leaflet/Mapbox GIS, and a Next.js interactive map app.
- Set up CI/CD pipelines with Git / Bitbucket / GitHub Actions — reproducible local dev via Lando across the entire portfolio.
- Released two open-source contributions on [drupal.org](#) (Constructor + Simple RealEstate distributions).
